

Health & Safety Policy

"At AICL Health, Safety and Environmental (HSE) responsibilities are integral to the way the company operates. In carrying out all its activities, Management and all employees believe that good HSE performance contributes to business success.

To realize this vision, employees work together to protect the quality of the environment and the health and safety of their colleagues, customers, and neighbors. The company aims to protect peoples' health, and minimize any environmental impact that can occur during the performance of their job functions.

The HSE policy follows all existing laws, regulations and amendments. "
